Starting a Course

In the “My Courses” tab, you can see the Courses assigned to you.

To start a Course, click on its title.

Pay attention to start consuming the “Courses” and not “Single Lessons”.

For proper check of which ones are courses and which are lessons, you can confirm with your teacher. You can also check that by opening the course and check that under the title of the course. If it indicates “Digital Learning, Nugget”, it is a Lesson, and if it is “Digital Learning, Learning Path”, it is a Course
